ABOUT ME

I am an enthusiastic developer with 2+ years of commercial experience in front-end development. Having an academic background in Computer Science and excellent soft skills, I always seek new knowledge and aim to do my best.

EXPERIENCE

FRONT-END DEVELOPER

Axon

May 2021 - July 2023

- worked on several projects (including company's internal products and commercial projects)
- implemented responsive user interfaces with React
- reviewed code of other developers, adhering to several programming principles (SOLID, KISS, YAGNI, DRY, etc)
- refactored and optimized existing solutions on a regular basis
- communicated regarding design, requirements and API architecture with team members
- worked in a classic SCRUM team: participated in daily meetings, estimations, retrospectives and managed my progress in Jira
- communicated with English-speaking clients

ENGLISH TEACHER

Skyeng

June 2018 - August 2018

- created personal studying plans for students
- led one-to-one classes using a custom online-platform
- supported and guided students in achieving their learning goals

EDUCATION

2018 - 2022

KYIV NATIONAL ECONOMICS UNIVERSITY

Bachelor of Computer Science

2021

MATE ACADEMY

Front-end development course
